a history of britain v the age of reason and the industrial revolution

the falklands war is an ideal showcase for how british policy evolved in the 1970s and 1980s the background of the dispute over the island group in the remote south atlantic called las malvinas by the argentinians is given first then the events that precipitated the 1982 conflict and extensive examination of the military aspects of the war are provided an overview follows of the many hypotheses offered for the british motivation to recapture the falklands showing that only those theories pertaining to the british perception of their national honor and the defense of democratic principles are significant the falklands war did not result in a dramatic shift in british defense policy but did show the importance of external developments and political realism in policy formation and these considerations are fully detailed here

The Falklands War

2015-08-01

this book dissects the complex social cultural and political factors which led the uk to take its decision to leave the eu and examines the far reaching consequences of that decision developing the conceptual framework of securitization ryder innovatively uses primary sources and a focus on rhetoric to examine the ways that political elites engineered a politics of fear insecurity and brexit nationalism before and after the brexit vote he situates brexit within a wider shift in international political ideas traces the resurgence in popularity of far right politics and explores how britain and europe now face a choice between further neoliberal reform or radical democratic and social renewal
