little tim is the central character for this innovative series that speaks both to parents and their little ones each of the first four books in the series deals with a fundamental problem that might affect three to five year olds fear especially of the dark anger and aggression that are frightening and difficult to manage jealousy perhaps due to the arrival of a new family member and the shyness that makes it difficult to face new situations such as the first day of nursery school the book s point of view makes it unique it speaks

directly to the reader describing a problem and providing five small simple solutions to help face it all of the points are imaginative and written using language suitable to the targeted age group with examples taken from the child's daily life that he or she can actually put into practice at the end of every book parents will find reflections and behaviors in a section dedicated to them because sometimes parents find these situations just as hard as their children do and sometimes even harder
