*Palm Pre* 1998-11 james hinton uses diaries kept by nine ordinary people in wartime britain to re evaluate the social history of the second world war and to reflect on the twentieth century making of the modern self these diaries were written by some of the unusually self reflective and public spirited people who agreed to write intimate journals about their daily activity for the social research organisation mass observation one of the nine diarists discussed is nella last whose published diaries have been a source of delight and fascination for many thousands of readers alongside her there are chapters on eight other mass observers each in their own way as vivid interesting and surprising as nella herself a central insight underpins the book in seeking to make the best of our own lives each of us makes selective use of the resources of our shared culture in a unique way and in so doing we contribute however modestly to molecular processes of historical change placing individuals at the centre of his analysis james hinton probes the impact of war on attitudes to citizenship the changing relationships between men and women and the search for meanings in life that could transcend the wartime context of limitless violence consistently sensitive thoughtful and often moving this beautifully written book resists nostalgic contrasts between the presumed dutiful citizenship of wartime britain and contemporary anti social individualism pointing instead to longer run processes of change rooted as much in struggles for personal autonomy in the private sphere as in the politics of active citizenship in public life

*Autocar* 2016-11-14 black enterprise is the ultimate source for wealth creation for african american professionals entrepreneurs and corporate executives every month black enterprise delivers timely useful information on careers small business and personal finance

American Photo 1990 the american council of the blind acb recipient of the 2022 dr margaret pfanstiehl audio description achievement award for research and development this handbook provides a comprehensive overview of the expanding field of audio description the practice of rendering the visual elements of a multimodal product such as a film painting or live performance in the spoken mode for the benefit principally of the blind and visually impaired community this volume brings together scholars researchers practitioners and service providers such as broadcasters from all over the world to cover as thoroughly as possible all the theoretical and practical aspects of this discipline in 38 chapters the expert authors chart how the discipline has become established both as an important professional service and as a valid academic subject how it has evolved and how it has come to play such an important role in media accessibility from the early history of the subject through to the challenges represented by ever changing technology the handbook covers the approaches and methodologies adopted to analyse the multimodal text in the constant search for the optimum selection of the elements to describe this is the essential guide and companion for advanced students researchers and audio description professionals within the more general spheres of translation studies and media accessibility
