## *The Politics of the Canoe*

2021-03-26

popularly thought of as a recreational vehicle and one of the key ingredients  
 of an ideal wilderness getaway the canoe is also a political vessel a potent  
 symbol and practice of indigenous cultures and traditions the canoe has also  
 been adopted to assert conservation ideals feminist empowerment citizenship  
 practices and multicultural goals documenting many of these various uses this  
 book asserts that the canoe is not merely a matter of leisure and pleasure it  
 is folded into many facets of our political life taking a critical stance on  
 the canoe the politics of the canoe expands and enlarges the stories that we  
 tell about the canoe s relationship to for example colonialism nationalism  
 environmentalism and resource politics to think about the canoe as a political  
 vessel is to recognize how intertwined canoes are in the public life governance  
 authority social conditions and ideologies of particular cultures nations and  
 states almost everywhere we turn and any way we look at it the canoe both  
 affects and is affected by complex political and cultural histories across  
 canada and the u s canoeing cultures have been born of activism and resistance  
 as much as of adherence to the mythologies of wilderness and nation building  
 the essays in this volume show that canoes can enhance how we engage with and

interpret not only our physical environments but also our histories and present day societies

## ***Canoe Nation***

2013-06-15

more than an ancient means of transportation and trade the canoe has come to be a symbol of canada itself in canoe nation bruce erickson argues that the canoe s sentimental power has come about through a set of narratives that attempt to legitimize a particular vision of canada that overvalues the nation s connection to nature from alexander mackenzie to grey owl to pierre elliott Trudeau the canoe authenticates canada s reputation as a tolerant environmentalist nation even when there is abundant evidence to the contrary ultimately the stories we tell about the canoe need to be understood as moments in the ever contested field of cultural politics

## ***Authorized Heritage***

2021-03-19

**2019-08-30**

authorized heritage analyses the history of commemoration at heritage sites across western canada using extensive research from predominantly government records it argues that heritage narratives are almost always based on national messages that commonly reflect colonial perceptions of the past yet many of the places that commemorate indigenous fur trade and settler histories are contested spaces places such as batoche seven oaks and upper fort garry being the most obvious at these heritage sites indigenous views of history confront the conventions of settler colonial pasts and represent the fluid cultural perspectives that should define the shifting ground of heritage space robert coutts brings his many years of experience as a public historian to this detailed examination of heritage sites across the prairies he shows how the process of commemoration often reflects social and cultural perspectives that privilege a conventional and conservative national narrative he also examines how class gender and sexuality often remain apart from the heritage discourse most notably authorized heritage examines how governments became the mediators of what is heritage and just as significantly what is not
