we ve all been there a new school year starts and there s 8 months till your exams that s plenty of time right then there s 6 months 3 months 1 month and oh now there s 2 weeks left and you haven t started studying what happens next is a panic induced mayhem of highlighting everything in the textbook without even questioning if it s actually helpful but i m here to help you change this in the only study guide you ll ever need i ll cover a range of different topics including how to get started and pick up that pen learning techniques that actually work hello science of memory the dos and don ts of timetabling and combatting fear of failure perfectionism exam stress and so much more as a fellow student now at university i definitely don t have a phd in exam etiquette but this is the book younger me needed all i wanted was one place that had a variety of tried and tested methods with reassurance

from someone who had recently been through the education system the only study guide you ll ever need is just that and i have collected the best techniques and tools i wish i d known earlier to help you get through your studies and smash your exams jade x
