## Digital citizenship education

2017-10-17

supporting children and young people to participate safely effectively critically and responsibly in a world filled with social media and digital technologies is a priority for educators the world over most young people in europe today were born and have grown up in the digital era education authorities have the duty to ensure that these digital citizens are fully aware of the norms of appropriate behaviour when using constantly evolving technology and participating in digital life despite worldwide efforts to address such issues there is a clear need for education authorities to take the lead on digital citizenship education and integrate it into school curricula in 2016 the education department of the council of europe began work to develop new policy orientations and strategies to help educators face these new challenges and to empower young people by helping them to acquire the competences they need to participate actively and responsibly in digital society this volume the first in a digital citizenship education series reviews the existing academic and policy literature on digital citizenship education highlighting definitions actors and stakeholders competence frameworks practices emerging trends and challenges the inclusion of a wide selection of sources is intended to ensure sufficient coverage of what is an emergent topic that has yet to gain a strong foothold in either education or academic literature but has received wider policy attention

## Digital citizenship education handbook

2019-02-25

being online well being online and rights online information tools and good practice digital citizenship competences define how we act and interact online they comprise the values attitudes skills and knowledge and critical understanding necessary to responsibly navigate the constantly evolving digital world and to shape technology to meet our own needs rather than to be shaped by it the digital citizenship education handbook offers information tools and good practice to support the development of these competences in keeping with the council of europe s vocation to empower and protect children enabling them to live together as equals in today s culturally diverse democratic societies both on and offline the digital citizenship education handbook is intended for teachers and parents education decision makers and platform providers alike it describes in depth the multiple dimensions that make up each of ten digital citizenship domains and includes a fact sheet on each domain providing ideas good practice and further references to support educators in building the competences that will stand children in good stead when they are confronted with the challenges of tomorrow s digital world the digital citizenship education handbook is consistent with the council of europe s reference framework of competences for democratic culture and compatible for use with the internet literacy handbook

2020-10-13

this volume brings together marginalized perspectives and communities into the mainstream discourse on education for sustainable development and global citizenship building on her earlier work sharma uses non western perspectives to challenge dominant agendas and the underlying western worldview in the unesco led discourse on global citizenship education chapters develop the theoretical framework around the three domains of learning within the global citizenship education conceptual dimensions of unesco the cognitive socio emotional and behavioral and offer practical insights for educators value creating global citizenship education is offered as a pedagogical approach to education for sustainable development and global citizenship in addition to and complementing other approaches mentioned within the recent unesco guidelines

## Muslim Citizens in the West

2016-04-29

drawing upon original case studies spanning north america europe and australia muslim citizens in the west explores how muslims have been both the excluded and the excluders within the wider societies in which they live the book extends debates on the inclusion and exclusion of muslim minorities beyond ideas of marginalisation to show that while there have undoubtedly been increased incidences of islamophobia since september 2001 some muslim groups have played their own part in separating themselves from the wider society the cases examined show how these tendencies span geographical ethnic and gender divides and can be encouraged by a combination of international and national developments prompting some groups to identify wider society as the other muslim and non muslim scholars and practitioners in political science social work history and law also highlight positive outcomes in terms of muslim activism with relationship to their respective countries and suggest ways in which increasing tensions felt perceived or assumed can be eased and greater emphasis given to the role muslims can play in shaping their place in the wider communities where they live

## *Citizenship*

2019-11-12

the story of citizenship as a tale not of liberation dignity and nationhood but of complacency hypocrisy and domination the glorification of citizenship is a given in today s world part of a civic narrative that invokes liberation dignity and nationhood in reality explains dimitry kochenov citizenship is a story of complacency hypocrisy and domination flattering to citizens and demeaning for noncitizens in this volume in the mit press essential knowledge series kochenov explains the state of citizenship in the

modern world kochenov offers a critical introduction to a subject most often regarded uncritically describing what citizenship is what it entails how it came about and how its role in the world has been changing he examines four key elements of the concept status considering how and why the status of citizenship is extended what function it serves and who is left behind rights particularly the right to live and work in a state duties and what it means to be a good citizen and politics as enacted in the granting and enjoyment of citizenship citizenship promises to apply the attractive ideas of dignity equality and human worth but to strictly separated groups of individuals those outside the separation aren't citizens as currently understood and they do not belong citizenship kochenov warns is too often a legal tool that justifies violence humiliation and exclusion

## Inclusion of the Other

2018-03-14

the inclusion of the other contains habermas s most recent work in political theory and political philosophy here habermas picks up some of the central themes of between facts and norms and elaborates them in relation to current political debates one of the distinctive features of habermas s work has been its approach to the problem of political legitimacy through a sustained reflection on the dual legitimating and regulating function of modern legal systems extending his discourse theory of normative validity to the legal political domain habermas has defended a proceduralist conception of deliberative democracy in which the burden of legitimating state power is borne by informal and legally institutionalized processes of political deliberation its guiding intuition is the radical democratic idea that there is an internal relation between the rule of law and popular sovereignty in these essays he brings this discursive and proceduralist analysis of political legitimacy to bear on such urgent

contemporary issues as the enduring legacy of the welfare state the future of the nationstate and the prospects of a global politics of human rights this book will be essential reading for students and academics in sociology and social theory politics and political theory philosophy and the social sciences generally

idea that news like education is a public good

## Electronic Democracy in Europe

2016-03-04

this edited book is the first of its kind to systematically address the intersection of e democracy and european politics it contributes to an improved understanding of the role that new media technologies play in european politics and the potential impact that internet based political participation processes may have on modern day representative democracy in europe a unique holistic approach is taken to examine e democracy s current state and prospects in europe from three partially overlapping and interlocking perspectives e public e participation and e voting the authors provide both theory inspired reflections on e democracy s contribution to the formation of the european public sphere as well as rich empirical analyses of contemporary e participation phenomena such as the european citizens initiative or e voting practices in estonia based on the presented findings the concluding chapter combines a prospective outlook with recommendations for future paths towards meaningful integration of e democracy in european politics and governance

## **Inclusive Citizenship**

2005-05

the absence of gender awareness in policy and planning in the past has given rise to a variety of efficiency welfare and equity costs this book develops an analytical framework and a set of tools which can assist planners as well as trainers to ensure that gender is systematically integrated into different aspects of their work it offers an inventory of the kinds of assumptions which lead to gender blind policy and assesses integrationist and transformatory strategies by feminist advocates to influence the mainstream policy agenda an analytical framework for examining the gender inequalities generated by key institutions through which development takes place occupies a central place in the book a selection of original case studies from the indian context serves to illustrate different aspects of the framework and its application

## **Management Information Systems**

2019-02

the goal of rainer introduction to information systems 5e is to teach all business majors especially undergraduate ones how to use information technology to master their current or future jobs and to help ensure the success of their organization to accomplish this goal this text helps students to become informed users that is persons knowledgeable about information systems and information technology the focus is not on merely learning the concepts of it but rather on applying those concepts to facilitate business processes the content concentrate on placing information systems in the context of business so that students will more readily grasp the concepts presented in the text the theme of this book is what s in it for me this question is asked by all students who take this course the book will show you that it is the backbone of any business whether a student is majoring in accounting finance marketing human resources or production operations management publisher s description

## Refusal, Transition and Post-apartheid Law

2009-11-01

refusal transition and post apartheid law under editorship of professor karin van marle is indeed long overdue as some of the authors in the relevant contributions to this publication rightly point out van marle s call for a jurisprudence of generosity enabled through an ethics of refusal signals a new shift in south african jurisprudence through the lens of van marle s ethics of refusal and her jurisprudence of generosity the articles present fresh and meaningful interpretations in respect of a range of very relevant topics ranging from property theory and a rethinking of human rights to the role of forgiveness and the dangers inherent in modern technology

## The Moral Neoliberal

2012-05-25

morality is often imagined to be at odds with capitalism and its focus on the bottom line but in the moral neoliberal morality is shown as the opposite an indispensable tool for capitalist transformation set within the shifting landscape of neoliberal welfare reform in the lombardy region of italy andrea muehlebach tracks the phenomenal rise of voluntarism in the wake of the state s withdrawal of social service programs using anthropological tools she shows how socialist volunteers are interpreting their unwaged labor as an expression of social solidarity with catholic volunteers thinking of theirs as an expression of charity and love such interpretations pave the way for a mass mobilization of an ethical citizenry that is put to work by the state visiting several sites across the region from milanese high schools to the offices of state social workers to the homes of the needy muehlebach mounts a powerful argument that the neoliberal state nurtures selflessness in order to cement some of its most controversial reforms at the same time she also shows how the insertion of such an anticapitalist narrative into the heart of neoliberalization can have unintended consequences

## **Edexcel International GCSE (9-1) Biology Student Book (Edexcel International GCSE (9-1))**

2021-11-12

## ***Struggles for Citizenship in Africa***

2013-04-04

hundreds of thousands of people living in africa find themselves non persons in the only state they have ever known because they are not recognised as citizens they cannot get their children registered at birth or entered in school or university they cannot access state health services they cannot obtain travel documents or employment without a work permit and if they leave the country they may not be able to return most of all they cannot vote stand for office or work for state institutions ultimately such policies can lead to economic and political disaster or even war the conflicts in both côte d ivoire and the democratic republic of congo have had at their hearts the very right of one part of the national population to share with others on equal terms the rights and duties

of citizenship this book brings together new material from across africa of the most egregious examples of citizenship discrimination and makes the case for urgent reform of the law

## ***The Inclusion of the Other***

2000-01-27

edited by ciaran cronin and pablo de greiff since its appearance in english translation in 1996 Jürgen Habermas's *Between Facts and Norms* has become the focus of a productive dialogue between German and Anglo-American legal and political theorists. The present volume contains ten essays that provide an overview of Habermas's political thought since the original appearance of *Between Facts and Norms* in 1992 and extend his model of deliberative democracy in novel ways to issues untreated in the earlier work. Habermas's theory of democracy has at least three features that set it apart from competing positions: first, it combines a concern with questions of normative justification with an empirical analysis of the social conditions necessary for the realization of democratic institutions; second, at the heart of his model is the assertion of an internal relationship between liberalism and democracy; on this account, the rights of the individual that are central to liberalism can be guaranteed only within a constitutional framework that at the same time fosters democratic rights of political participation through the public sphere; finally, Habermas defends a conception of universal human rights that is not only sensitive to cultural differences but also calls for legal and political institutions that facilitate the cultivation of cultural and religious identities within pluralistic societies. These essays demonstrate the extraordinary power of Habermas's theory of democracy through a further engagement with Rawls's political liberalism and through original contributions to current debates over nationalism, multiculturalism, and the viability of supranational political institutions.

## **Democracy and Constitutions**

2021

bold and unconventional this book advocates for an institutional turn about in the relationship between democracy and constitutionalism

## **The UK's Changing Democracy**

2018-11-01

The UK's Changing Democracy presents a uniquely democratic perspective on all aspects of UK politics at the centre in Westminster and Whitehall and in all the devolved nations. The 2016 referendum vote to leave the EU marked a turning point in the UK's political system. In the previous two decades the country had undergone a series of democratic reforms during which it seemed to evolve into a more typical European liberal democracy: the establishment of a Supreme Court, adoption of the Human Rights Act, Scottish, Welsh and Northern Irish devolution, proportional electoral systems, executive mayors, and the growth in multi-party competition. All marked profound changes to the British political tradition. Brexit may now bring some of these developments to a juddering halt. The UK's previous exceptionalism from European patterns looks certain to continue indefinitely. Taking back control of regulations, trade, immigration and much more is the biggest change in UK governance for half a century. It has already produced enduring crises for the party system, parliament and the core executive, with uniquely contested governance over critical issues and a rapidly changing political landscape. Other recent trends are no less fast-moving, such as the revival of two-party dominance in England, the re-creation of some mass membership parties and the disruptive challenges of social

media in this context an in depth assessment of the quality of the uk s democracy is essential each of the 2018 democratic audit s 37 short chapters starts with clear criteria for what democracy requires in that part of the nation s political life and outlines key recent developments before a swot analysis of strengths weaknesses opportunities and threats crystallises the current situation a small number of core issues are then explored in more depth set against the global rise of debased semi democracies the book s approach returns our focus firmly to the big issues around the quality and sustainability of the uk s liberal democracy

## **REFERENCE FRAMEWORK FOR COMPETENCES FOR DEMOCRATIC CULTURE.**

2018

this is the third edition of this publication which contains the latest information on vaccines and vaccination procedures for all the vaccine preventable infectious diseases that may occur in the uk or in travellers going outside of the uk particularly those immunisations that comprise the routine immunisation programme for all children from birth to adolescence it is divided into two sections the first section covers principles practices and procedures including issues of consent contraindications storage distribution and disposal of vaccines surveillance and monitoring and the vaccine damage payment scheme the second section covers the range of different diseases and vaccines

### Immunisation against infectious diseases
