A History of the American People 2020-09-02 originally published in 1933 and written by america s historian james truslow adams this volume tells the story of the rise of the american nation encompassing economics religion social change and politics from settlement to the civil war due emphasis is given to the inter connectedness of america with europe both in terms of cultural heritage and political and military entanglements extensive in size and scope and richly illustrated with half tones and maps these volumes balance a historical narrative with philosophical interpretation whilst touching on as many aspects of american life and history as possible

A People's History of the United States 2003-04-01 presents the history of the united states from the point of view of those who were exploited in the name of american progress

The History of America 1786 the creation of the united states of america is the greatest of all human adventures begins paul johnson no other national story holds such tremendous lessons for the american people themselves and for the rest of mankind in his prize winning classic johnson presents an in depth portrait of american history from the first colonial settlements to the clinton administration this is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character littered with letters diaries and recorded conversations it details the origins of their struggles for independence and nationhood their heroic efforts and sacrifices to deal with the organic sin of slavery and the preservation of the union to its explosive economic growth and emergence as a world power johnson discusses contemporary topics such as the politics of racism education the power of the press political correctness the growth of litigation and the influence of women throughout history he sees americans as a problem solving people and the story of their country as essentially one of difficulties being overcome by intelligence and skill by faith and strength of purpose by courage and persistence looking back on its past and forward to its future the auguries are that it will not disappoint humanity sometimes controversial and always provocative a history of the american people is one author s challenging and unique interpretation of american history johnson s views of individuals events themes and issues are original critical and in the end admiring for he is above all a strong believer in the history and the destiny of the american people

A History of the American People 2009-06-30 this volume in oxford s a very short introduction series offers a concise readable narrative of the vast span of american history from the earliest human migrations to the early twenty first century when the united states loomed as a global power and comprised a complex multi cultural society of more than 300 million people the narrative is organized around major interpretive themes with facts and dates introduced as needed to illustrate these themes the emphasis throughout is on clarity and accessibility to the interested non specialist

American History: A Very Short Introduction 2012-08-16 since its founding the united states declared principles of liberty and democracy have often clashed with aggressive policies of imperial expansion in this sweeping narrative history acclaimed scholar walter nugent explores this fundamental american contradiction by recounting the story of american land acquisition since 1782 and shows how this steady addition of territory instilled in the american people a habit of empire building from america s early expansions into transappalachia and the louisiana purchase through later additions of alaska and island protectorates in the caribbean and pacific nugent demonstrates that the history of american empire is a tale of shifting motives as the early desire to annex land for a growing population gave way to securing strategic outposts for america s global economic and military interests thorough enlightening and well sourced this book explains the deep roots of american imperialism as no other has done

A First Book in American History 2015-09-01 selected as a 2018 summer read by the sunday times observer i paper and the big issue enormously entertaining sunday times fascinating new statesman excoriating brilliant ali smith enthralling guardian my number one contributor when it comes to us politics dan snow the american dream is dead donald trump said when announcing his candidacy for president in 2015 how would he revive it by putting america first the american dream and america first are two of the most loaded phrases in america today and also two of the most misunderstood as divides within america widen sarah churchwell looks to the past to reveal what the surprising history of these two phrases can tell us about today

History of the United States of America, from the Discovery of the Continent [to 1789]. 1884 first published in 1962 frederick rudolph s groundbreaking study the american college and university remains one of the most useful and significant works on the history of higher education in america bridging the chasm between educational and social history this book was one of the first to examine developments in higher education in the context of the social economic and political forces that were shaping the nation at large surveying higher education from the colonial era through the mid twentieth century rudolph explores a multitude of issues from the financing of institutions and the development of curriculum to the education of women and blacks the rise of college athletics and the complexities of student life in his foreword to this new edition john thelin assesses the impact that rudolph s work has had on higher education studies the new edition also includes a bibliographic essay by thelin covering significant works in the field that have appeared since the publication of the first edition at a time when our educational system as a whole is under intense scrutiny rudolph s seminal work offers an important historical perspective on the development of higher education in the united states

History of the United States from the Discovery of the American Continent 2015-09-17 our nation began with the simple phrase we the people but who were and are we who were we in 1776 in 1865 or 1968 and is there any continuity in character between the we of those years and the nearly 300 million people living in the radically different america of today with made in america claudia s fischer draws on

decades of historical psychological and social research to answer that question by tracking the evolution of american character and culture over three centuries he explodes myths such as that contemporary americans are more mobile and less religious than their ancestors or that they are more focused on money and consumption and reveals instead how greater security and wealth have only reinforced the independence egalitarianism and commitment to community that characterized our people from the earliest years skillfully drawing on personal stories of representative americans fischer shows that affluence and social progress have allowed more people to participate fully in cultural and political life thus broadening the category of american yet at the same time what it means to be an american has retained surprising continuity with much earlier notions of american character firmly in the vein of such classics as the lonely crowd and habits of the heart yet challenging many of their conclusions made in america takes readers beyond the simplicity of headlines and the actions of elites to show us the lives aspirations and emotions of ordinary americans from the settling of the colonies to the settling of the suburbs

Behold, America 2018-05-03 this highly visual survey of american history introduces students to the key features of american political social and economic history in an exciting format designed to ignite students passion to know history the american journey brief edition provides students with the most help available in reading thinking and applying the material they are learning in the text and in lecture a series of pedagogical aids in text and out of class study companions as well as complete instructor presentational and assessment support make this text the perfect choice for those looking to make history come alive for their students the path that led the authors to the american journey began in the classroom with their students the goal of this text is to make american history accessible to students the key to that goal the core of the book is a strong clear narrative and a positive theme of the american journey american history is a compelling story that the authors tell in an engaging forthright way while providing students with an abundance of tools to help them absorb that story and put it into context this text combines political and social history to fit the experience of particular groups into the broader perspective of the american past to give voice to minor and major players alike because the history of america is in the stories of its people

The American College and University 1990 excerpt from a history of american literature since 1870 american literature in the larger sense of the term began with irving and if we count the sketch book as the beginning the centennial year of its birth is yet four years hence it has been a custom especially among the writers of text books to divide this century into periods and all have agreed at one point in the mid thirties undoubtedly there began a new and distinct literary movement the names given to this new age which corresponded in a general way with the victorian era in england have been various it has been called the age of emerson the transcendental period the national period the central period national it certainly was not but among the other names there is little choice just as with the victorian era in england not much has been said as to when the period ended there has been no official closing though it has been long evident that all the forces that brought it about have long since expended themselves and that a distinctively new period has not only begun but has already quite run its course it has been our object to determine this new period and to study its distinguishing characteristics we have

divided the literary history of the century into three periods denominating them as the knickerbocker period the new england period and the national period and we have made the last to begin shortly after the close of the civil war with those new forces and new ideals and broadened views that grew out of that mighty struggle the field is a new one no other book and no chapter of a book has ever attempted to handle it as a unit it is an important one it is our first really national period all american autochthonic it was not until after the war that our writers ceased to imitate and looked to their own land for material and inspiration the amount of its literary product has been amazing there have been single years in which have been turned out more volumes than were produced during all of the knickerbocker period the quality of this output has been uniformly high about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Made in America 2010-05-15 originally published in 1991 explaining the history of american foreign relations has become an indispensable volume not only for teachers and students in international history and political science but also for general readers seeking an introduction to american diplomatic history this collection of essays highlights a variety of newer innovative and stimulating conceptual approaches and analytical methods used to study the history of american foreign relations including bureaucratic dependency and world systems theories corporatist and national security models psychology culture and ideology along with substantially revised essays from the first edition this volume presents entirely new material on postcolonial theory borderlands history modernization theory gender race memory cultural transfer and critical theory the book seeks to define the study of american international history stimulate research in fresh directions and encourage cross disciplinary thinking especially between diplomatic history and other fields of american history in an increasingly transnational globalizing world

The Centennial History of the United States. from the Discovery of the American Continent to the Close of the First Century of American Independence 2018-02-24 since its landmark publication in 1980 the original history has sold more than 1.7 million copies more than a successful book it triggered a revolution in the way history is told displacing the official versions with their emphasis on great men in high places to chronicle events as they were lived from the bottom up historians howard zinn and paul buhle and cartoonist mike konopacki have collaborated to retell in vibrant graphic form a most immediate and relevant chapter of a people's history of american empire the story of america's ever growing role on the world stage narrated by zinn this version opens with the events of 9/11 and then tracks back to explore the cycles of us expansionism from wounded knee to iraq while taking in world war i central america vietnam and the iranian revolution the book also follows the story of zinn the son of poor jewish immigrants from his childhood in the brooklyn slums to his role as one of america's leading historians shifting from world shattering events to one family's small revolutions this is a classic ground level history of america in a dazzling new form

The American Journey 2010 the heroic discovery of america at the close of the fifteenth century after christ has compelled the generous and just admiration of the world but the grandeur of human enterprise and achievement in the discovery of the western hemisphere has a less claim on our admiration than that divine wisdom and controlling providence which for reasons now manifested kept the secret hidden through so many millenniums in spite of continual chances of disclosure until the fullness of time

The History of the Origin, Progress, and Termination of the American War - Scholar's Choice Edition 2015-02-08 a literate exploration of why we use or mangle our native tongue usa today bill bryson celebrates america s magnificent offspring in the book that reveals once and for all how a dusty western hamlet with neither woods nor holly came to be known as hollywood and exactly why mr yankee doodle call his befeathered cap macaroni

History of the Rise, Progress and Termination of the American Revolution 2019-03-04 examines how american social science modelled itself on natural science and liberal politics

Topical Studies and References on the Economic History of American Agriculture 2018-02-14 unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

The Power of Ideals in American History 2012-01 cd rom contains digital image archive of books magazines manuscripts technologies and readers to accompany text

Don't Know Much about American History 2003 in this concise accessible introductory survey of the history of the united states from 1790 to the present day edward j davies examines key themes in the evolution of america from colonial rule to international supremacy focusing particularly on those currents within us history that have influenced the rest of the world the book is neatly divided into three parts which examine the atlantic world 1700 1800 the us and the industrial world and the emergence of america as a global power the united states in world history explores such key issues as the dynamics of the british atlantic community the american revolution the impact of industrialization on the us the expansion of us consumer and cultural industries the cold war and its implications for the us part of our successful themes in world history series the united states in world history presents a new way of examining the united states and reveals how concepts that originated in america s definition of itself as a nation concepts such as capitalism republicanism and race have had supranational impact across the world

made in america 2015-06-02 presents the history of america from the earliest times of the native americans to the clinton administration

The Origins of American Social Science 1991 it was thomas jefferson who envisioned the united states as a great empire of liberty in the first new one volume history in two decades david reynolds takes jefferson s phrase as a key to the saga of america helping unlock both its grandeur and its paradoxes he examines how the anti empire of 1776 became the greatest superpower the world has seen how the country that offered liberty and opportunity on a scale unmatched in europe nevertheless founded its prosperity on the labour of black slaves and the dispossession of the native americans he explains how these tensions between empire and liberty have often been resolved by faith both the evangelical protestantism that has energized u s politics since the foundation of the nation and the larger faith in american righteousness that has impelled the country s expansion reynolds account is driven by a compelling argument which illuminates our contemporary world this is also a book in which the voices of the past speak out strongly for themselves not just presidents from washington to bush but ordinary men and women settlers and indians slaves and immigrants factory workers and farmers baseball players and suburban housewives reynolds celebrates america s technological achievements the plough the skyscraper and the personal computer he paints vivid pictures of the battlefield of gettysburg the stockyards of chicago and the bus boycott in montgomery alabama but he also asks hard questions about the cost of greatness from the indian trail of tears to the civil war and the war on terror reynolds depicts a country that has derived much of its energy even its identity from a perpetual struggle against enemies real or imagined written with verve insight and humour by a prize winning historian america empire of liberty is a new history for a new presidency

Ten American Girls from History 2013-06 examines the presence of africans in america from 1526 when the slaves of a spanish expedition rebelled and settled among local native americans

Perspectives on American Book History 2002 this new edition of brogan s superb one volume history from early british colonisation to the reagan years captures an array of dynamic personalities and events in a broad sweep of america s triumphant progress brogan explores the period leading to independence from both the american and the british points of view touching on permanent features of the american character both the good and the bad he provides a masterly synthesis of all the latest research illustrating america s rapid growth from humble beginnings to global dominance
