The History of British Journalism

1859

this is a survey of a seminal and intensely controversial period in british history from the union of the crowns of england and scotland in 1603 to the union of the kingdoms in 1707 the book explores the intersecting histories of the stuart monarchies and considers how events in each nation were shaped by being part of a multiple kingdom as well as by their own internal dynamics throughout special attention is given to the personalities and political style of successive rulers their role in precipitating two revolutions is examined against the background of longer term constitutional religious and social themes in particular the parallels between james i and charles ii and between charles i and james ii are clearly drawn out

1998-04-08

thoroughly revised restructured and updated a history of british publishing covers six centuries of publishing in britain from before the invention of the printing press to the electronic era of today john feather places britain and her industries in an international marketplace and examines just how british british publishing really is considering not only the publishing industry itself but also the areas affecting and affected by it feather traces the history of publishing books in britain and examines education politics technology law religion custom class finance production and distribution the onslaught of global corporations specifically designed for publishing and book history courses this is the only book to give an overall history of british publishing and will be an invaluable resource for all students of this fascinating subject

A History of British Fishes

1841

aiming to avoid technical terminology richard mckinley provides an introduction to the history of hereditary surnames in britain from their first appearance to the present day devoting a chapter to each of the main categories of name he enables readers to set the facts they discover about their own ancestry family history and surnames into the context of general surname development the author deals with those names that originate in england wales and scotland and since these tend to have their own distinct histories he discusses developments in each of the three countries separately wherever appropriate the book uses the study of surnames to illuminate social history and draws attention to the complex patterns of population mobility that have always characterized british society it also describes regional and class differences in surnames some features of which survive to our own time

A History of British Publishing

2002-06-01

up to world war ii and beyond the british ruled over a vast empire modern western attitudes towards the imperial past tend either towards nostalgia for british power or revulsion at what seem to be the abuses of that power the cambridge illustrated history of the british empire adopts neither of these approaches it aims to create historical understanding about the british empire on the assumption that such understanding is important for any informed appreciation of the modern world through striking illustration and a text written by leading experts this book examines the experience of colonialism in north america india africa australia and the caribbean as well as the impact of the empire on britain itself emphasis is placed on social and cultural history including slavery trade religion art and the movement of ideas how did the british rule their empire who benefited economically from the empire and who lost
