excellence chapter 3 a better student experience and better qualified graduates chapter 4 a diverse and responsive sector chapter 5 improved social mobility through fairer access chapter 6 a new fit for purpose regulatory framework by shifting public spending away from teaching grants and towards repayable tuition loans the government believes higher education will receive the funding it needs whilst making savings on public expenditure the reforms aim to deliver a more responsive higher education sector in which funding follows the decisions of learners and successful institutions are freed to thrive also creating an environment in which there is a new focus on the student experience and the quality of teaching and in which further education colleges and other alternative providers are encouraged to offer a diverse range of higher education provision the government through the office for fair access offa will be introducing a national scholarship programme and will also increase maintenance grants and loans for nearly all students new technology innovation centres will also be rolled out followed by publication of an innovation and research strategy exploring the roles of knowledge creation business investment skills and training

## *Dual Coding for Teachers*

2019-06-04

as part of the discovery of cognitive science teachers are waking up to the powers of dual coding combining words with visuals in your teaching but cognitive scientists aren't graphic designers and so their books don't show teachers how to be competent in producing effective visuals there is a huge gap between what we know about dual coding and the skills needed to practice it effectively in the classroom until now dual coding with teachers is a breakthrough educational book no other book has been designed with both cognitive science and graphic principles in mind every page contains diagrams infographics illustrations and graphic organisers the book is designed to cater for both the busy teacher in a rush as well as the research hungry colleague over 35 teachers teacher developers psychologists and information designers are profiled each with a double page spread highlighting their dual coding practice the author oliver caviglioli is uniquely placed to bridge the gap between education and graphic design a former special school head teacher oliver learned design principles from an early age from his architect and typographer father four decades of reading educational research has found its visual expression in this spectacular image rich book
