Proceedings of the 5th Legal International Conference and Studies (LICS 2022) 2019-08-02

this is an open access book in the era of globalization and economic liberalization the free trade applies and begins to be implemented such as the asian economic community aec the inflow and outflow of food beverage drug and cosmetic products circulating in the world community is increasing rapidly indeed the halal products circulated and traded

cannot be confirmed so that they do not give a sense of peace security comfort and are suitable for consumption by muslim consumers the circulation of various products on the market both in the form of finished products and raw materials especially those sourced from animals either directly or derived from animals has made it difficult for the muslim community to trace the halalness of a product people are also weak in understanding the ingredients and the production process of a food product thus efforts to provide consumer protection especially muslim consumers are very important and urgent therefore it is the duty of the state to protect its citizens according to the mandate of the constitution above with this condition the need for halal certification is getting stronger considering that muslim consumers are increasingly critical and need certainty of the halalness of the food products they consume both in terms of materials and production processes to packaging and distribution for this reason halal certification of food beverage drug and cosmetic products is very important halal certification is a necessity to provide certainty about the halalness of a product so that the rights and interests of muslim consumers to carry out their religious sharia not to consume non halal products will be guaranteed this regulation on the protection of muslim consumer rights has also been mandated in law number 18 of 2012 concerning food furthermore food safety quality nutrition and halal are the rights of muslim consumers which are protected by law and become a government program in food development to meet the most important basic human needs and their fulfillment is part of the human rights of every indonesian people

ICSA 2019 2023-02-10
