*Change the Sandler Way* 2016-08-01 while a vice president at salesforce david priemer had an epiphany during one of the company's high pressure selling periods the very sales tactics they were using were not working on him yes the numbers still showed results but through brute force rather than elegance and efficiency priemer also discovered that his sales colleagues were spending far more time on leads that did not convert to sales than on those that did his company and his entire profession was acting with more than enough gusto but without enough awareness and empathy they were not selling the way they buy sell the way you buy is about much more than putting yourself in the customer's shoes customers don't always know what they want or need or they may be seeking a solution for something that isn't their core problem they suffer from status quo bias from recency bias from confirmation bias and meanwhile the state of overwhelming choice has most products and solution providers adrift in the sea of sameness in today's world almost everyone is in sales but as priemer realized we don't teach it sell the way you buy will show you how to ask questions how to listen how to tell a compelling brand story and how to talk to customers how to talk to people priemer reveals scientifically supported methods to understand the customer identify their needs and move them toward the right solution
