## Online Student Ratings of Instruction 2011-09-28

this volume examines the development and growing use of online student ratings and the potential impact online rating systems will have on the future of students evaluations of teaching the contributors demonstrate how the preference for online evaluation is growing even amidst challenges and doubt sharing their first hand experience as researchers and administrators of online systems they explore major concerns regarding online student ratings and suggest possible solutions d lynn sorensen and christian m reiner review existing online rating systems that have been developed independently across the globe kevin hoffman presents the results of a national survey that tracks the increased use of the internet for student ratings of instruction at northwestern university nedra hardy demonstrates how ongoing research about online student evaluations is helping to dispel common misperceptions application of online rating systems can present institutions with new challenges and obligations trav d johnson details a case study based on five years of research in the response rates for one university s online evaluation system and suggests strategies to increase student participation reviewing online reporting of results of online student ratings donna c llewellyn explores the emerging issues of security logistics and confidentiality other chapters explore existing online systems highlighting their potential benefits for institution and instructor alike beatrice tucker sue jones lean straker and joan cole analyze course evaluation on the cew a comprehensive online system for instructional feedback and improvement cheryl davis bullock reviews the evaluation online eon system and its successful role in facilitating midcourse student feedback the fate of online rating may rest in the unique advantages it may or may not have over traditional ratings systems debbie e mcghee and nana lowell compare online and paper based methods through mean ratings inter rater reliabilities and factor structure of items comparing systems from another angle timothy w bothell and tom henderson examine the fiscal costs and benefits of implementing an online evaluation system over paper based systems finally christina ballantyne considers the prominent issues and thought provoking ideas for the future of online student ratings raised in this volume together the contributors bring insight and understanding to the processes involved in researching and initiating innovations in online rating systems this is the 96th issues of the quarterly journal new directions for teaching and learning

## The Relationship of Emotional Language on Viewer Shares Within Online News Platforms 2015

this research tests the hypothesis that emotional language drives viewer sharing of online content within news platforms text analysis software liwc will be used to analyze the emotion aspects of the top 5 weekly most shared online articles n 71 published on the new york times website five emotion language markers will be used as predictors anger anxiety sadness disgust and positive emotions viewer sharing will be tracked with four measures of top five ranking popularity sustaining bouncing and linearity popularity will be measured with three indicators of sharing mean ranking positive skew of ranking upward trend and kurtosis of ranking surging sustaining is indicated by the n number of hours the articles appear on top five ranking standard deviation of the ranking and midimax upward parabolic function shape bouncing is indicated by midimin downward parabolic and cubic function shape linear is

indicated by linearity rate of change itself which is the rise and run shape of the chart these four measures of viewer sharing will be regressed on the five emotional language markers the result indicated that positive emotion correlate with popularity and linear measure anger and anxiety significantly correlate with bouncing while disgust with popularity sadness does not found to be correlated with any of the measures

## **Electric Vehicle Sharing Services for Smarter Cities 2017-08-20**

this book examines electric car sharing in cities from a variety of perspectives from service design to simulation from mathematical modeling to technology deployment and from energy use improvement to the integration of different kinds of vehicle the contents reflect the outcomes of the green move project undertaken by politecnico di milano with the aim of fostering an innovative and easily accessible electric vehicle sharing system the first section of the book illustrates the car sharing service covering service design the configuration of the vehicle sharing model and the milan mobility pattern analysis of local demand and supply testing of the condominium based car sharing model and communication design for social engagement the second section then explains the technological choices from the architecture of the system and dynamic applications to information management the smartphone based energy oriented driving assistance system automatic fleet balancing systems and real time monitoring of vehicle positions in the final section readers will find descriptions of the simulation model a model to estimate potential users of the service and a model for a full scale electric car sharing service in milan

## **Autodesk Inventor 2019: Working with 3D Annotations and Model-Based Definition (Mixed Units) 2017-07-07**

autodesk inventor 2019 working with 3d annotations model based definition teaches experienced autodesk inventor users how to create 3d annotations to support the visual presentation of annotations in 3d pdf format and a model based definition mbd workflow the geometry designed in a 3d cad modeling environment is created perfectly during the manufacturing stage it is not possible to achieve the same perfection variations in size feature location and orientation are unavoidable this learning guide instructs how to use the tools in autodesk inventor 2018 to create 3d annotations that communicate dimensional and gd t data hold thread notes surface texture requirements and informational text based annotations all of which aim to improve manufacturing accuracy additionally this learning guide explains how you can share your 3d annotated models as 3d pdfs as step files for use by other software applications or in 2d drawing views topics covered creating dimensional annotations creating hole thread note annotations creating surface texture annotations creating text based annotations to a model to communicate additional modeling information creating tolerance features to a model using the tolerance advisor to review informational messages and warnings on the tolerance features in a model creating a general profile note annotation prerequisites access to the 2019 version of the software the practices and files included with this guide might not be compatible with prior versions knowledge of gd t required the international gd t standard asme y14.5m 2009 governs how annotations should be added to clearly describe the model s intent this learning guide assumes that you know how the model is to be annotated and aims to only explain how they are added using the autodesk inventor software students should have completed the autodesk inventor 2019 introduction to solid modeling learning guide or have an equivalent understanding of the autodesk inventor user interface and working environments

## **AutoCAD 2018 Instructor 2015-05-01**

this book is your autocad 2018 instructor the objective of this book is to provide you with extensive knowledge of autocad whether you are taking an instructor led course or learning on your own autocad 2018 instructor maintains the pedagogy and in depth coverage that have always been the hallmark of the leach texts as the top selling university textbook for almost a decade the autocad instructor series continues to deliver broad coverage of autocad in a structured easy to comprehend manner autocad 2018 instructor is command oriented just like autocad chapters are structured around related commands similar to the organization of autocad s menu system the sequence of chapters starts with fundamental drawing commands and skills and then progresses to more elaborate procedures and specialized applications the writing style introduces small pieces of information explained in simple form and then builds on that knowledge to deliver more complex drawing strategies requiring a synthesis of earlier concepts over 2000 figures illustrate the commands features and ideas autocad 2018 instructor is an ideal reference guide unlike tutorial oriented books where specific information is hard to relocate because these chapters focus on related commands and complete coverage for each command is given in one place the commands procedures and applications are easy to reference tabbed pages help locate tables lists appendices and the comprehensive index

## **Vision Anew 2019-10-11**

the ubiquity of digital images has profoundly changed the responsibilities and capabilities of anyone and everyone who uses them thanks to a range of innovations from the convergence of moving and still image in the latest dslr cameras to the growing potential of interactive and online photographic work the lens and screen have emerged as central tools for many artists vision anew brings together a diverse selection of texts by practitioners critics and scholars to explore the evolving nature of the lens based arts presenting essays on photography and the moving image alongside engaging interviews with artists and filmmakers vision anew offers an inspired assessment of the medium s ongoing importance in the digital era contributors include ai weiwei gerry badger david campany lev manovich christian marclay lászló moholy nagy walter murch trevor paglen pipilotti rist shelly silver rebecca solnit and alec soth among others this vital collection is essential reading for artists educators scholars critics and curators and anyone who is passionate about the lens based arts

## **Information Diffusion Management and Knowledge Sharing: Breakthroughs in Research and Practice 2012-10-23**

within the past 10 years tremendous innovations have been brought forth in information diffusion and management such technologies as social media have transformed the way that information is disseminated and used making it critical to understand its distribution through these mediums with the consistent creation and wide availability of information it has become imperative to remain updated on the latest trends and applications in this field information diffusion management and knowledge sharing breakthroughs in research and practice examines the trends models challenges issues and strategies of information diffusion and management from a global context highlighting a range of topics such as influence maximization information spread control and social influence this publication is an ideal reference source for managers librarians information systems specialists professionals researchers and administrators seeking current research on the theories and applications of global information management

## **Media Audiences 2011-04-14**

whether we are watching tv surfing the internet listening to our ipods or reading a novel we are all engaged with media as a member of an audience despite the widespread use of this term in our popular culture the meaning of the audience is complex and it has undergone significant historical shifts as new forms of mediated communication have developed from print telegraphy and radio to film television and the internet media audiences explores the concept of media audiences from four broad perspectives as victims of mass media as market constructions commodities as users of media and as producers subcultures of mass media the goal of the text is for students to be able to think critically about the role and status of media audiences in contemporary society reflecting on their relative power in relation to institutional media producers

## **Behavior Dynamics in Media-Sharing Social Networks 2013-06-26**

in large scale media sharing social networks where millions of users create share link and reuse media content there are clear challenges in protecting content security and intellectual property and in designing scalable and reliable networks capable of handling high levels of traffic this comprehensive resource demonstrates how game theory can be used to model user dynamics and optimize design of media sharing networks it reviews the fundamental methodologies used to model and analyze human behavior using examples from real world multimedia social networks with a thorough investigation of the impact of human factors on multimedia system design this accessible book shows how an understanding of human behavior can be used to improve system performance bringing together mathematical tools and engineering concepts with ideas from sociology and human behavior analysis this one stop guide will enable researchers to explore this emerging field further and ultimately design media sharing systems with more efficient secure and personalized services

## **The Sharing Economy for Tackling Cybercrime 2012-07-15**

piracy cultures editorial introduction manuel castells 1 university of southern california gustavo cardoso lisbon university institute iscte iul what are piracy cultures usually we look at media consumption starting from a media industry definition we look at tv radio newspapers games internet and media content in general all departing from the idea that the access to such content is made available through the payment of a license fee or subscription or simply because its either paid or available for free being supported by advertisements or under a freemium business model that is we look at content and the way people interact with it within a given system of thought that sees content and its distribution channels as the product of relationships between media companies organizations and individuals effectively a commercial relationship of a contractual kind with accordant rights and obligations but what if for a moment we turned our attention to the empirical evidence of media consumption practice not just in asia africa and south america but also all over europe and north america all over the world we are witnessing a growing number of people building media relationships outside those institutionalized sets of rules we do not intend to discuss whether we are dealing with legal or illegal practices our launching point for this analysis is that when a very significant proportion of the population is building its mediation through alternative channels of obtaining content such behavior should be studied in order to deepen our knowledge of media cultures because we need a title to characterize those cultures in all their diversity but at the same time in their commonplaceness we propose to call it piracy cultures

## **Increasing Your Tweets, Likes, and Ratings 2010-04-10**

the talking cure examines four nationally syndicated television talk shows donahue the oprah winfrey show geraldo and sally jessy raphael which are primarily devoted to feminine culture and issues serving as one of the few public forums where working class women and those with different sexual orientations have a voice these talk shows represent american tv at its most radical shattuc examines the tension between talk s feminist politics and the television industry who in their need to appeal to women trades on sensation stereotypes and fears in order to engender product consumption however this genre is not a one way form of social interaction the female audience complies and resists in a complex give and take and it is this relationship which the talking cure aims to understand and reveal
