period each chapter includes a discussion of the historiographical developments of the last decade and focusing on the plague and the economy maurice keen presents a fresh look at the changing world of the later middle ages surveying the period from edward i to the death of richard iii which heralded in the tudor age this enthralling and informative work will be of massive benefit to students of history and the middle ages

God and Reason in the Middle Ages 2001-07-30

between 1100 and 1600 the emphasis on reason in the learning and intellectual life of western europe became more pervasive and widespread than ever before in the history of human civilization of crucial significance was the invention of the university around 1200 within which reason was institutionalized and where it became a deeply embedded permanent feature of western thought and culture it is therefore appropriate to speak of an age of reason in the middle ages and to view it as a forerunner and herald of the age of reason that was to come in the seventeenth century the object of this study is twofold to describe how reason was manifested in the curriculum of medieval universities especially in the subjects of logic natural philosophy and theology and to explain how the middle ages acquired an undeserved reputation as an age of superstition barbarism and unreason

The Central Middle Ages 2006 daniel power traces the history of europe in the central middle ages 950 1320 an age of far reaching change for the continent seven contributors consider the history of this period from a variety of perspectives including political social
