from the ceo and founder of one of the world s foremost sales training organization this breakthrough guide reveals that selling is much more an issue of who you are than what you know and why you sell is far more important than how

The Inner Game of Selling

2006

a retrospective review of the course of one s life is apt to reveal that most of the past events of one s life including those which seemed to be the outcome of one s conscious choice were unplanned and due to some unforeseen happenings or chance events such as meeting somebody receiving a suggestion from somebody or somewhere coming across a book visiting a certain place etc a good deal of mystery and unpredictability also surrounds what happens to one s life internally from day to day or even from hour to hour the alternation of moods the upsurges of impulses the kindling of emotions etc according to those who can see behind the external appearance of things

2015-11-10

2/25

the inner game of selling mastering the
hidden forces that determine your success

the key to such mystery behind the internal as well as external events and vicissitudes of our lives consists in the fact that all life is a play of hidden forces we live and move in a world of forces of which we are almost totally unaware this book is a compilation from the works of sri aurobindo and the mother on the hidden forces of life which act on us influencing our thoughts feelings and actions and determining the course of events in life

The Hidden Forces of Life

1990

having an understanding of the human mind and how it functions is probably the single most important thing anyone who wants to be successful can do we make thousands of decisions every day in fact research suggests that an adult brain makes on average about 35 000 remotely conscious decisions on a daily basis when we were younger choices were most likely simple as we get older our level of responsibility increases and so does the amount of choices that we are faced with on a daily basis with ever increasing choices and responsibility at least our decision making process stays the same right in actuality our decision making process is broken it s warped and sometimes even shattered by cognitive bias why are we so afraid of sharks or plane crashes yet continue to do far more dangerous things why do we instinctively look for patterns to inform our decision making and bring meaning to our world why can t we listen to reason when we need it most join spencer fraseur through a journey of real stories of flawed logic and bad behavior in business and in life to discover what can be done to overcome the hidden forces that impact our everyday decisions

The Irrational Mind

2020-10-12

jonah berger the bestselling author of contagious explores the subtle secret influences that affect the decisions we make from what we buy to the careers we choose to what we eat in his latest new york times bestseller that is a rare business book that s both informative and enough fun to take to the beach fortune com if you re like most people you think your individual tastes and opinions drive your choices and behaviors you wear a certain jacket because you liked how it looked you picked a particular career because you found it interesting the notion that our choices are driven by our own personal thoughts and opinions is patently obvious right wrong without

the inner game of selling mastering the
hidden forces that determine your success

our realizing it other people's behavior has a huge influence on everything we do at every moment of our lives from the mundane to the momentous even strangers have an impact on our judgments and decisions our attitudes toward a welfare policy shift if we're told it is supported by democrats versus republicans even though the policy is the same but social influence doesn't just lead us to do the same things as others in some cases we imitate others around us but in other cases we avoid particular choices or behaviors because other people are doing them we stop listening to a band because they go mainstream we skip buying the minivan because we don't want to look like a soccer mom by understanding how social influence works we can decide when to resist and when to embrace it and learn how we can use this knowledge to exercise more control over our own behavior in invisible influence jonah berger is consistently entertaining applying science to real life in surprising ways and explaining research through narrative his book fascinates because it opens up the moving parts of a mysterious machine allowing readers to watch them in action publishers weekly

Invisible Influence

2016-06-14

this is a summary of behavioral economist and new york times bestselling author dan ariely's predictably irrational the hidden forces that shape our decisions offering a much needed take on the irrational decisions that led to our current economic crisis why do our headaches persist after we take a one cent aspirin but disappear when we take a fifty cent aspirin why do we splurge on a lavish meal but cut coupons to save twenty five cents on a can of soup when it comes to making decisions in our lives we think we're making smart rational choices but are we in this newly revised and expanded edition of the groundbreaking new york times bestseller dan ariely refutes the common assumption that we behave in fundamentally rational ways from drinking coffee to losing weight from buying a car to choosing a romantic partner we consistently overpay underestimate and procrastinate yet these misguided behaviors are neither random nor senseless they're systematic and predictable making us predictably irrational available in a variety of formats this summary is aimed for those who want to capture the gist of the book but don't have the current time to devour all 384 pages this is a summary that is not intended to be used without reference to the original book

never has the world bank's relief work been more important than in the last nine years when crises as huge as aids and the emergence of terrorist sanctuaries have threatened the prosperity of billions this journalistic masterpiece by Washington Post columnist Sebastian Mallaby charts those controversial years at the bank under the leadership of James Wolfensohn the unstoppable power broker whose daring efforts to enlarge the planet's wealth in an age of globalization and terror were matched only by the force of his polarizing personality based on unprecedented access to its subject this captivating tour through the messy reality of global development is that rare triumph an emblematic story through which a gifted author has channeled the spirit of the age this edition features a new afterword by the author that analyzes the appointment of Paul Wolfowitz as Wolfensohn's successor at the World Bank

The New Class War

2020-02-20

why do some people achieve so much more than others can they lie so far out of the ordinary no one starts with nothing rags to riches stories fool us because although they may be factually true you may start your life poor and finish it rich they leave out all the advantages of circumstances that contribute to success further they make us believe that success is an individual achievement but no one succeeds alone focusing on outliers explains why the self made man is a myth and what truly lies behind the success of the best people in their field which is often a series of lucky events rare opportunities and other external factors which are out of our control therefore i expected the book to be about deliberate practice and how success is in your own hands if you work hard enough boy was i wrong the book argues the exact opposite
