Policing America's Empire 2009-10-15 at the dawn of the twentieth century the u s army swiftly occupied manila and then plunged into a decade long pacification campaign with striking parallels to today s war in iraq armed with cutting edge technology from america s first information revolution the u s colonial regime created the most modern police and intelligence units anywhere under the american flag in policing america s empire alfred w mccoys shows how this imperial panopticon slowly crushed the filipino revolutionary movement with a lethal mix of firepower surveillance and incriminating information even after washington freed its colony and won global power in 1945 it would intervene in the philippines periodically for the next half century using the country as a laboratory for counterinsurgency and rearming local security forces for repression in trying to create a democracy in the philippines the united states unleashed profoundly undemocratic forces that persist to the present day but security techniques bred in the tropical hothouse of colonial rule were not contained mccoys shows at this remote periphery of american power migrating homeward through both personnel and policies these innovations helped shape a new federal security apparatus during world war i once established under the pressures of wartime mobilization this distinctively american system of public private surveillance persisted in various forms for the next fifty years as an omnipresent sub rosa matrix that honeycombed u s society with active informers secretive civilian organizations and government counterintelligence agencies in each succeeding global crisis this covert nexus expanded its domestic operations producing new contraventions of civil liberties from the harassment of labor activists and ethnic communities during world war i to the mass incarceration of japanese americans during world war ii all the way to the secret blacklisting of suspected communists during the cold war with a breathtaking sweep of archival research mccoys shows how repressive techniques developed in the colonial philippines migrated back to the united states for use against people of color aliens and really any heterodox challenge to american power this book proves mark twain s adage that you cannot have an empire abroad and a republic at home bruce cumings university of chicago this book lays the philippine body politic on the examination table to reveal the disease that lies within crime clandestine policing and political scandal but mccoys also draws the line from manila to baghdad arguing that the seeds of controversial counterinsurgency tactics used in iraq were sown in the anti guerrilla operations in the philippines his arguments are forceful sheila s coronel columbia university conclusively mccoys policing america s empire is an impressive historical piece of research that appeals not only to southeast asianists but also to those interested in examining the historical embedding and institutional ontogenesis of post colonial states police power apparatuses and their apparently inherent propensity to implement illiberal practices of surveillance and repression salvador santino f regilme jr journal of current southeast asian affairs mccoys remarkable book does justice both to its author s deep knowledge of philippine history as well as to his rare expertise in unmasking the seamy undersides of state power polar political and legal anthropology review winner george mct kahin prize southeast asian council of the association for asian studies

Investigation of management problems at Los Alamos National Laboratory 2003 pneumonia causes almost 1 in 5 under five deaths worldwide more than 2 million children each year it kills more children than any other disease more than aids malaria and measles combined yet lack of attention to the disease means too few children have access to currently available interventions preventing children under five from developng pneumonia in the first place is key this joint unicef who publication is designed to raise awareness and reduce child mortality from pneumonia which will contribute to achieving the millennium development goal on child mortality

Report of the Secretary of the Senate 2001 the new york yankees are synonymous with home runs with more than 14 000 round trippers to its credit new york has out homered the next most prolific franchise by more than 1 000 despite the yankees having been in existence for 20 fewer years this book organizes information on the many new york home runs into detail and summary oriented tables part i covers various situational categories e g grand slam leadoff walk off special dates opening day memorial day players birthdays and significant player and team records gehrig s 23 career grand slams five or more yankees homers in a game parts ii and iii provide career summaries number of seasons with 20 plus homers by position in the batting order and franchise totals home runs by ballpark and opponent and part iv covers season by season totals and yearly leaders also included are appendices for inside the park and bounce home runs and home runs allowed by the yankees

Agricultural Prices, Annual Summary 2006 national parks wildlife refuges and sanctuaries natural reserves conservation areas frontier lands and marine protected areas are increasingly recognized as essential providers of ecosystem services and biological resources as debates about climate change and sustainability intensify protected areas become more important as indicators of ecosystem conditions in particular environments or in comparison with adjacent environments the first book of its kind remote sensing of protected lands showcases state of the art remote sensing applications for the inventory and monitoring of protected areas contributions from renowned scholars and experts from around the world are organized into four sections covering the use of remote sensing in changing landscapes and change detection inventory mapping and conservation inventory and monitoring of frontier lands decision support for the management of protected lands a view of both the forest and the trees combining reviews of theories and methods with analysis of case studies the book gives readers both a systematic view of the field and detailed knowledge of specific topics case studies explore key topics in the context of a wide range of protected areas including national parks in the united states and canada the albertine rift in eastern africa the amazon forests the changbai mountain region in northeast asia the frontier lands in siberia and the tibetan plateau and marine protected areas along the tropical and temperate pacific and atlantic coasts alongside each case study the book examines advanced remote sensing technologies such as airborne and spaceborne high spatial resolution imageries multispectral and multitemporal time series data satellite interferometric synthetic aperture radar insar and the integration of remote sensing and field measurements for information

extraction and modeling discussing challenges lessons learned and recommendations this book provides a snapshot of how remote sensing techniques can be used to gather extensive spatial spectral temporal and thematic information on protected lands and waters

Pneumonia 1987 in this indispensable astrology book noel tyl presents the definitive study of astrology s most accurate prediction system the first major presentation of solar arc theory and practice in the english language this book offers the entire application spectrum of solar arcs dramatized in numerous case studies tyl explains the theory behind solar arcs from their inception in ancient times to their present day articulation in rich psychodynamic natal analyses he also focuses on their quintessential importance to modern rectification methodology the divining of unknown birth times finally he shows you how to maximize computer software support to produce definitive results learn the developmental history of the solar arc method identify important development times in anyone s life at a glance explore the timing power of tertiary progressions follow step by step rectification methods use the 100 year quick glance ephemeris acquire knowledge of 1 130 possible natal and solar arc midpoint pictures solar arcs reveals the immense power of today s fastest growing astrological method written for the advancing student and the professional astrologer noel tyl s work will transform the way you practice astrology

Hourly Precipitation Data 1984-03 an astrology book geared specifically toward relationship aspects of the zodiac signs is offered by one of the foremost astrologers in the world and the author of 23 books

Hourly Precipitation Data 2000 presents results of field test data conducted on online ammonia analyzers to evaluate the accuracy reliability and maintenance requirements of each analyzer for application in water and wastewater treatment
