**Nuclear Weapons and Coercive Diplomacy** 2017-01-16 are nuclear weapons useful for coercive diplomacy since 1945 most strategic thinking about nuclear weapons has focused on deterrence using nuclear threats to prevent attacks against the nation s territory and interests but an often overlooked question is whether nuclear threats can also coerce adversaries to relinquish possessions or change their behavior can nuclear weapons be used to blackmail other countries the prevailing wisdom is that nuclear weapons are useful for coercion but this book shows that this view is badly misguided nuclear weapons are useful mainly for deterrence and self defense not for coercion the authors evaluate the role of nuclear weapons in several foreign policy contexts and present a trove of new quantitative and historical evidence that nuclear weapons do not help countries achieve better results in coercive diplomacy the evidence is clear the benefits of possessing nuclear weapons are almost exclusively defensive not offensive

communist ideology this essay considers one aspect of the relationship between ideology and foreign policy since this question has long been the subject of a mostly inconclusive and often circular academic debate armstrong states his reasons for returning to it here the first is that the problem is no less important because it admits of no easy solution indeed with the breakdown in the twentieth century of even the limited consensus over norms and values that permitted a great power concert to exist for part of the nineteenth the question is clearly one of major significance in contemporary international relations since china has become in many ways a symbol of the postwar ideological challenge to the established order in world politics the question is particularly relevant in a study of china s foreign policy finally by combining a strictly limited focus of enquiry with a systematic approach to the problem it may be possible to overcome some of the analytical difficulties that surround the larger issue of the relation of ideas to social practice this title is part of uc press s voices revived program which commemorates university of california press s mission to seek out and cultivate the brightest minds and give them voice reach and impact drawing on a backlist dating to 1893 voices revived makes high quality peer reviewed scholarship accessible once again using print on demand technology this title was originally published in 1977

**The nexus between Public Diplomacy and Military Diplomacy in Foreign  
Affairs and Defense Policy** 2013-07-18 essay from the year 2012 in the subject  
politics international politics topic peace and conflict studies security grade 2 1  
language english abstract public diplomacy by the idea was implemented  
approximately 100 years ago as a purely civilian part of diplomacy which  
aimed to inform foreign populations and citizens about the goals of countries  
foreign policy by the use of information and cultural programs in the  
meaning of the clausewitz philosophy that the war is the continuation of  
politics by other means the military was always linked to the diplomacy but  
never part of it on the other hand military diplomacy for a long period was  
just the business for military attaches and their mission was to be the nation s  
eye and ears abroad in the days before satellite photography and sophisticated  
electronic collection techniques along with the changes in the international  
theatre regarding constellation of alliances goals of foreign policies and threat  
assumptions the content of public diplomacy has changed and its targeted  
programs expanded at the same time the understanding and definition of

security changed its content since the collapse of the iron curtain and the breakdown of the soviet union nowadays the term of a comprehensive approach marks the definition of security security is now an interconnection between civilian and military means and approaches whilst the use military force remains a last resort therefore programs and means from the areas of military and public diplomacy received an increased attention and a more prominent status for this reason this essay will try to show the close relation of modern defense strategies policies and diplomacies the guiding research question for this essay therefore shall be is there in modern foreign affairs and defense policy a relation between military diplomacy and public diplomacy and if so what characterizes this relation along that line this essay will try to study the nexus between public diplomacy and military diplomacy with the assumption that international relations and defense policy s are aiming on overlapping areas especially when it comes to diplomacy the hypothesis therefore can be encapsulates without naming it in official policy documents and without a focused strategy an area developed recently where public diplomacy and military diplomacy are going along together with a common tool set hereby the special case study of the german armed forces are should prove that they are already practicing public diplomacy within their military posture since decades

**Diplomacy in the context of the Nigeria Civil War** 2012-11-22 research paper postgraduate from the year 2012 in the subject african studies culture and applied geography grade none course international studies and diplomacy language english abstract war is the highest form of political struggle for resolving contradictions when they have developed to a certain stage either between classes nations states or political groups hence the rapport between war and peace is being determined by the approach or position of diplomacy since the failure of diplomacy usually laid the basis for the start of war and after all wars peace often reign it is of enormous significance to recognize the important relationship between war and diplomacy like all civil wars the nigerian civil war was unique in the context of the nation s history this is because it was the most vivid expression of a country turned against itself as

with civil wars in other countries the nigerian civil war can be analyzed within the context of a failed diplomatic act hence this paper discussed the position of negotiation or peace talk before and after the nigerian civil war of 1967 1970 it has also looked at the general impact of diplomacy during the period of the crisis

**China's Foreign Aid and Investment Diplomacy, Volume II** 2016-04-29 today by many accounts china is the world s foremost purveyor of foreign aid and foreign investment to developing countries this is the product of china s

miracle economic growth over a period of more than three decades together with china s drive to become a major player in world affairs and accomplish this through economic rather than military means this three volume work is the first comprehensive study of china s aid and investment strategy to trace how it has evolved since beijing launched its foreign aid diplomacy at the time of the founding of the people s republic of china in 1949 volume ii provides an analysis of china s foreign aid and investment to countries and regional organizations on the asian continent covering all of its major sub regions during the period from 1950 to the present day copper considers motivating factors such as the korean war the vietnam war and china s desire to challenge the west and later the soviet union also important to china and driving its aid and investment was china s pursuit of communist bloc solidarity a search for secure borders and competition with india for influence in the third world securing its imports of energy and raw materials and markets for its products came later marginalizing taiwan and defeating it diplomatically constituted another goal of china s foreign aid and foreign investment analyzed here

**A Diplomatic History of Europe Since the Congress of Vienna** 1958 although much has been written on international crises the literature suffers from a lack of historical depth and a proliferation of competing theoretical frameworks through case studies drawing on the rich historical experience of crisis diplomacy james richardson offers an integrated analysis based on a critical assessment of the main theoretical approaches due weight is given to systemic and structural factors but also to the specific historical factors of each case and to theories which do not presuppose rationality as well as those which do crisis diplomacy the major political choices made by decision makers and their strategies judgments and misjudgments is found to play a crucial role in each of the case studies this broad historical inquiry is especially timely when the ending of the cold war has removed the settled parameters within which the superpowers conducted their crisis diplomacy

*Historical Dictionary of British Foreign Policy* 2013 in the tryst betrayed  
 former indian foreign secretary jagat singh mehta looks back on an eventful  
 career which began on the day after india s independence in his lucid and  
 informative style mehta sheds light on nehru s prophetic assertion of  
 ideological agnosticism named non alignment in 1946 and its distortion by the  
 accidental overlap of decolonization with the cold war mehta argues that  
 nehru was naïve on china wishful on the soviet union and prejudiced against  
 america the civil servants were hypnotized by what he refers to as the  
 panditji knows best syndrome he illustrates that nehru s bark was no doubt  
 frightening but his bite not vicious

*The Tryst Betrayed* 2015-04-15 this in depth analysis goes behind the

headlines to understand why crucial negotiations fail the author argues that diplomats often enter negotiations with flawed assumptions about human behavior sovereignty and power essentially the international community is using a model of european diplomacy dating back to the 18th century to solve the complex problems of the 21st century through numerous examples the author shows that the key failure in current diplomatic efforts is the entrenched belief that nations through their representatives will act rationally to further their individual political economic and strategic interests however the contemporary scientific understanding of how people act and see their world does not support this assumption on the contrary research from decision making theory behavioral economics social neuropsychology and current best practices in mediation indicate that emotional and irrational factors often have as much if not more to do with the success or failure of a mediated solution reviewing a wide range of conflicts and negotiations noll demonstrates that the best efforts of negotiators often failed because they did not take into account the deep seated values and emotions of the disputing parties in conclusion noll draws on his own long experience as a professional mediator to describe the process of building trust and creating a climate of empathy that is the key to successful negotiation and can go a long way toward resolving even seemingly intractable conflicts

*Satow's Diplomatic Practice* 2009-09-24 president dwight d eisenhower and his secretary of state john foster dulles deployed a tactic chris tudda calls rhetorical diplomacy sounding a belligerent note of anti communism in speeches addresses press conferences and private meetings with allies and with moscow yet all the while tudda discloses the two were confidentially committed to a contradictory course the establishment of a strong system of collective security in western europe peaceful accommodation of the soviet union and the maintenance of a new albeit divided germany tudda explores the eisenhower administration s pursuit of these two mutually exclusive diplomatic strategies and reveals how failure to reconcile them endangered the fragile peace of the 1950s he builds his argument through three case studies of the administration s badgering the french and their allies to ratify the european defense community of its threat to liberate eastern europe from moscow s rule and of its forcing the issue of german reunification by emphasizing the threat from the soviet union eisenhower and dulles were trying to promote an activist rather than an isolationist foreign policy but their rhetorical diplomacy intensified cold war tensions with european allies as well as with moscow and effectively overwhelmed the administration s true diplomatic aims based on american british eastern european and soviet primary sources many only recently unearthed the truth is our weapon is a major contribution to the historiography of eisenhower s diplomacy and an important statement about the implications of public and private policy making

for a clash of civilizations

Comparative Human Rights Diplomacy 2022-04-11 the new economic diplomacy explains how states conduct their external economic relations in the 21st century how they make decisions domestically how they negotiate internationally and how these processes interact although the previous edition published in 2011 was able to reflect the impact of the financial crisis and the immediate reaction to it a lot has happened since then and the atmosphere of economic diplomacy has darkened to capture the emergence of new trends and the intensification of old ones the salient features of this new edition are the advance of china and other emerging powers at the expense of g7 governments despite some setbacks much greater activity in negotiating regional and plurilateral trade agreements while the multilateral system struggles the persistence of problems exposed by the financial crisis notably the long running euro zone crisis the interaction between domestic and external forces the balance has shifted towards the domestic axis with international agreement more difficult to achieve this edition goes further in comparing the practice of different players to reflect the greater diversity of economic diplomacy based on the authors work in the field of international political economy it is suitable for students interested in the decision making processes in foreign economic policy including those studying international relations government politics and economics it will also appeal to politicians bureaucrats business people ngo activists journalists and the informed public
